Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

Well-Being and Basic Needs Survey, United States, 2022

DS1: Public-Use Data

1. **Statistical Limitations:** Some variable labels in the data are truncated due to character limitations in statistical packages. Please see the questionnaire for full labels.

2. **Constructed Variables:** The variables **PPAGE** through **MULT_HARDSHIP** occur in the data but not the questionnaire; for more information see the User Guide.

3. **Family and Household Composition Variables:** For more information on the imputed family and household variables in the data, please see Table 1 on page 5 of the User Guide.

4. **Variable Differences:** Some variables that are referenced in the questionnaire are not included in the data set released by ICPSR; for more information see the User Guide.

5. **Additional Information:** Additional information about the survey is available at the Well-Being and Basic Needs Survey website.

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
